

Course Outline

“think
learn?
succeed”

“smart training for clever people”

Finding Your Groove

1 Day

When jazz musicians play as one, they talk about being ‘in the groove’. Your team can experience this state of complete alignment. With it comes a sense of vision and purpose. Explore your team’s vision and develop a strategy for achieving it. Identify what you need to keep on doing and what you need to change in order to thrive well into the future. Design a strategic plan which isn’t just dot points on the page, but is a compelling call to action.

What you’ll learn to do in this course

You’ll come out of this session with powerful tools for improving team dynamics and building a strong vision of the future you want to create together. We’ll bring theory to life and tell you how to succeed. A range of practical tips will be presented to you. You’ll talk through examples and enjoy practical exercises. At the end of the course, you should be able to:

- Uncover the mindsets which drive the current culture of your team
- Identify which aspects of that culture to retain and to change
- Create a vision statement to define what being ‘successful’ really means
- Agree on ways to work together to achieve your vision
- Identify the key actions required to turn your vision into reality

Topics you’ll cover

- Setting the tone – communication norms for the workshop
- Your songs so far – uncovering beliefs about what a great business is
- Tuning up – identifying what to keep and what to change
- Playing in sync – creating a compelling vision
- Being in the groove – building an action plan to align teams with the vision

What others have said about our workshops..

‘Brilliant and fabulous, I got so much out of it.’

‘Thought provoking, interesting and very practical.’

‘Well run, well presented, excellently lead and managed. Solution focussed’

‘Very positive and useful. Activities were though provoking and really hit the mark.’
