

Course Outline

“think
learn?
succeed”

“smart training for clever people”

Success Booster Day

1 Day

Your team is productive, positive and doing a good job. Now it's time to move from good to great. How? By creating a compelling vision for the future. Tap into the creative energy in your group. Develop new ideas and new ways of working – so you can keep leaping from success to success. Identify what is contributing to your current 'positivity dynamic' and work out how to sustain it over time. Look into the future and work out how your team will be working five years from now. Then develop an action plan for making that future real.

What you'll do in this workshop

Build stronger relationships and inspire each other to keep growing and changing. Set 'great hairy goals' for the future. Talk, laugh and create together. Every team is different, so the full agenda for your Success Booster Day will be created in consultation with your group. Expect to work through issues such as:

- The current strengths, limitations, inspirations and motivators in your work group
- What your team's vision for the future is
- Practical steps you can take to turn that vision into reality
- Challenges you might face along the way – and how to power through them

Activities to consider including

Success Booster Days work best when they're interactive, focused and contain a dash of fun. This means we'll skip the 'bored room' lectures and get everyone moving and participating. You can choose from a range of energy-building activities, including:

- Team walker (illustrated below)
- Camp fire story-building
- Cartooning
- Play-building
- Painting your vision
- Playback learning with actors

What others have said about our workshops

Good day, lots of useful tools which need to reflect on and work out what will work well with a team spread across four states.

Helen Molloy. Tower, 2011

'Well run, well presented, excellently lead and managed. Solution focussed'

Natasha. Calvary Mater 2015

'Great, well facilitated course that brought out what people had thought or felt but hadn't had an opportunity to express.'

Melinda France. NIDA, 2012

'Perceptive facilitation, great insights. Eleanor understood the core issues affecting the team and responded to those.'

Sharee. NPS, 2013
